Investors Community Bank LED Lighting Upgrade Results in Saved Energy and Money

(Manitowoc, WI, February 26, 2019) Investors Community Bank’s corporate headquarters in Manitowoc recently upgraded to LED lighting. The upgrade at the 2400 S. 44th Street building, completed by Hubbart Electric - Manitowoc, will save the organization nearly 250,000 kilowatt hours of energy and \$21,000 each year.

“We strive on a daily basis to make our facilities run more efficiently and economically,” said Tim Schneider, Investors Community Bank’s co-founder and CEO. “By converting to LED lighting we are being better stewards of the environment and fiscally responsible for our organization.”

In addition to the money and energy savings, the lighting project will help decrease air pollution and environmental damage by eliminating the following from the environment each year:

- 84.1 tons of Carbon Dioxide
- 0.213 tons of Sulfur Dioxide
- 0.078 tons of Nitrogen Oxide
- .004 tons of Mercury

The environmental impact of the conversion is the equivalent of planting 25.4 trees and saving 11,413 gallons of gas.

Investors Community Bank, a wholly-owned subsidiary of County Bancorp, Inc., is committed to serving the financial needs of businesses, farmers and families in our communities. Founded in 1997, Investors has become one of the most successful bank startups in Wisconsin’s history and has full service offices in Appleton, Green Bay, Manitowoc and Stevens Point, as well as Loan Production Offices in Eau Claire, Sheboygan, Darlington and Fond du Lac. County Bancorp Inc.’s common stock is traded on the NASDAQ global market under the symbol ICBK. For details visit www.InvestorsCommunityBank.com
